

Scottish Leather Group

12th July 2005

Environmental Policy

It is the policy of Scottish Leather Group Ltd that the affairs of all group companies are managed in a manner which ensures that, wherever possible, the improvement in quality of emissions to water, land or air is a constant aim and a significant feature in process and investment decision making.

Concern for the environment is integral and fundamental to the business strategy of Scottish Leather Group Ltd and its subsidiary companies. It will be the responsibility of individual group companies to identify their own environmental criteria and policies to satisfy group policy to attain the necessary standards to which they subscribe.
